ECEL 2026

25th European Conference on e-Learning

Lund University, Sweden

Mini Track: Artificial Intelligence in E-Learning: Uses, Implications and Responsible Practice

Mini Track Chair: Prof. Dr. Abbas Fadhil Aljuboori, Gulf College, Muscat, Sultanate of Oman

This mini-track focuses on the use and implications of artificial intelligence (AI) in e-learning across blended, online and distance education contexts. As AI-driven technologies are increasingly integrated into educational platforms and digital learning environments, there is a growing need to better understand how these technologies can support teaching, learning and assessment, while also addressing their pedagogical, ethical and institutional implications. The track aims to bring together researchers and practitioners who investigate how AI can be meaningfully embedded in learning design and instructional practice to enhance learner engagement, feedback, personalisation and academic support. Particular attention is given to the role of AI in supporting teachers and learners through intelligent tutoring systems, automated feedback and assessment, learning support tools, and adaptive learning environments. In addition, the mini-track encourages critical perspectives on the broader implications of AI in education, including issues of transparency, bias, data protection, academic integrity and the changing roles of teachers and institutions. Contributions that examine how AI can support inclusive and accessible e-learning practices, and how it can be implemented responsibly within diverse educational contexts, are especially welcome. The mini-track welcomes empirical studies, design-based research, case studies and conceptual contributions that explore the opportunities and challenges of adopting AI in real educational settings, including higher education, schools and professional learning. Overall, the track seeks to advance understanding of how AI can be used responsibly and effectively to enhance the quality, inclusivity and sustainability of e-learning in blended and distance education environments. Transfer across contexts and learning ecologies, rather than short-term task performance.

Topics may include but are not limited to:

- AI-supported teaching, learning and assessment in online and blended education
- Intelligent tutoring systems and adaptive learning environments
- AI for feedback, learner support and engagement in distance education
- Implications of AI for inclusive and accessible e-learning
- Ethical, transparency and data protection issues in the use of AI in education
- Changing roles of teachers and institutions in AI-enabled learning environments
-

Prof. Dr. Abbas Fadhil Aljuboori is working currently at Gulf College, Department of Computing Sciences, Muscat, Sultanate of Oman. He is also worked as a Deputy Dean for Scientific Affairs at AlShaab University, Baghdad, Iraq. He has a Ph.D. in Computer Science from Dongguk University, South Korea. Fulbright Visiting scholar – University of Central Oklahoma – Edmond – USA. International Advisory Board Member for CT University, India. He worked as a Vice President for Administrative Affairs and Head of Smart Cities Center at University of Information Technology and Communications, Baghdad, Iraq. Faculty Staff Member at Al Zahra College for Women, Muscat, Oman. Researcher and Manager in the Advanced Institute of Convergence Information Technology (AICIT) – South Korea, Head of Computer Science Department – University of Kerbala. Vice President of Iraqi Universities Accreditation and Quality Assurance Council for Computer Science and IT. His field of Interest are in Data Mining, Big Data, Artificial Intelligence, Cyber Security, Information Systems, Social Media Analysis, and Smart Applications. He is a Member of several of Academic and Professional Societies. He is

an Editor-in-Chief, Editorial Board Member and Reviewer of many eminent International Journals and Conferences worldwide.

Submission details

In the first instance a 300 word abstract is required, to be received by **1 April 2026.** Please read the guidelines here: https://www.academic-conferences.org/conferences/submission-information/

Submissions must be made using the online submission form at
https://www.academic-conferences.org/conferences/ecel/ecel-abstract-submission/

If you have any questions about this track, please email Dr. Abbas Fadhil Aljuboori
abbas.aljuboori@gulfcollege.edu.om
